

SCNPS Grand Strand Chapter Grant Committee Reader Volunteer Role Description

Grant Committee Reader Position

Grant Committee Readers review applications to the SCNPS Grand Strand Chapter's grant program. Grant cycles are in the spring and fall and offer grants to organizations within the Grand Strand area. This is a great opportunity to learn, and fund, exciting projects that support native plants in the Grand Strand area, including for organizations that would otherwise be unable to fulfill these projects.

Duties include:

- Review of grants alongside the Grants Committee with the use of a rubric
- With the Grants Committee, attend a twice yearly Zoom call to discuss applications and make recommendations for grant funding

Experience with native plants and/or community grant programs is beneficial, but not required

This position is primarily limited to two times a year, in the spring and fall and does not require a large time commitment overall.
